Special Offers of Irises

The special offers on page 16 of 1930 catalogue are canceled.

Never before have we placed before our customers an offer that equals those that follow. This year we offer to send you 20 choice varieties, without labels, for \$3.00, or 10 for \$1.50. These will be our selection, no two alike, from the foregoing price list, and each \$3.00 order will include at least one Dominion Seedling and one Ambassadeur. These two will be labeled.

Each order will include the world's best irises, covering a wide range of colors, and varieties which if bought singly would cost from three to four times as much.

Here is an unequalled opportunity to secure a garden of beautiful orchid-like bloom at a price so low as to be startling. Express charges to be paid by purchaser.

And don't overlook our magnificent collection of thirteen Dominion Seedlings, which, sold separately, cost \$32.75; all for \$20.00; *this collection prepaid.*

PEONIES

Orders for Peonies will be filled in September, October and November.

Cash with order, please

We made such drastic reductions in prices last year that, with a very few exceptions in the extremely high priced varieties, no changes will be made this year in the single plant prices.

For prices and complete descriptions of our more than 250 varieties of choice Peonies, see our 1930 catalogue. If you have mislaid your copy, send us a postal for another and we will gladly forward it.

ALL PEONIES SOLD BY US WILL HAVE THREE TO FIVE OR MORE EYES

Since their recent introduction to the trade the following sensational varieties have been uniformly priced at \$50. That is the price we had to pay five years ago. Stocks have increased somewhat and we are reducing these prices very radically.

The "Selection of Peonies for \$1.00 Each," or any ten for \$7.50, shown on page 10 of 1930 catalogue is continued, except that we have discarded the variety "Jeanne Gaudichau," and, if you wish, you may substitute "Candeur" in its stead, though its price is \$2.

Extra Special Peony Offer No. 3—\$5.00

Each year we have surplus stock in certain varieties, and we offer seven Peonies, our selection, for \$5.00, purchaser to pay express charges. Red, white and pinks of various shades will be selected, and all will be labeled. This is a fine opportunity for one just starting a Peony garden, but this collection is not recommended for Southern California.

Because of the larger interest being shown in California and the Southern States, we are making the following group offers of varieties specially suited to warm climates. To have them do well they **MUST** be given plenty of water throughout the growing and blooming season and until the "winter season."

Early Landscape Peonies

Your attention is especially invited to the Peony Umbellata rosea. It is the earliest of all to bloom in our fields, save the old-fashioned "Grandma's Piny" or Officinallis Rubra Plena. Umbellata rosea is a very lovely deep pink, semi-double, and is a very graceful and lovely flower for general landscape effect. We offer it in lots of 10 for \$5.00, express collect.

Of course you remember in your childhood days the fine very dark red, fully double, large flowers that always bloomed for Decoration Day. Its name is Officinallis Rubra Plena, and it serves you splendidly as an early landscape variety. This we can also furnish in lots of 10 at \$5.00, express collect.

Come and see them in bloom! Drive to 122nd Street and Meridian Avenue, South side of Haller Lake. Paved all the way. Irises bloom in May; Peonies in June. Come and see some Irises and Peonies never before shown on the Pacific Coast.
